Summer 2017
Mini Look Book

3 Fabulous Outfits
To Help you Beat
The Summer's Heat!

Unearthed Amber

Style Tip:

Graphic tees are perfect to combat the Summer heat.

They're lightweight, airy and still pack a great punch in style! Pick a statement piece within your look, and style around it with complimentary accessories that don't take away from your look, but enhance the overall style and feel.

Carnival

Style Tip:

Kimonos are definitely trending this Summer. They're the perfect layering piece to add color and flavor to an otherwise boring outfit. When styling a look with multiple colors, chose one of the colors to accessorize with.

Palm Springs

Style Tip:

Slides and wicker accessories have been very popular this season. They pair very well with dressier pieces to give the appearance of a more cool and casual look.

Wide leg pants are also a great option for Summer. They allow the fabric to flow away from your body which enables a breeze to flow through.
